

SOLECO

WE OPEN HORIZONS

www.solecoddoors.com

Who are we?

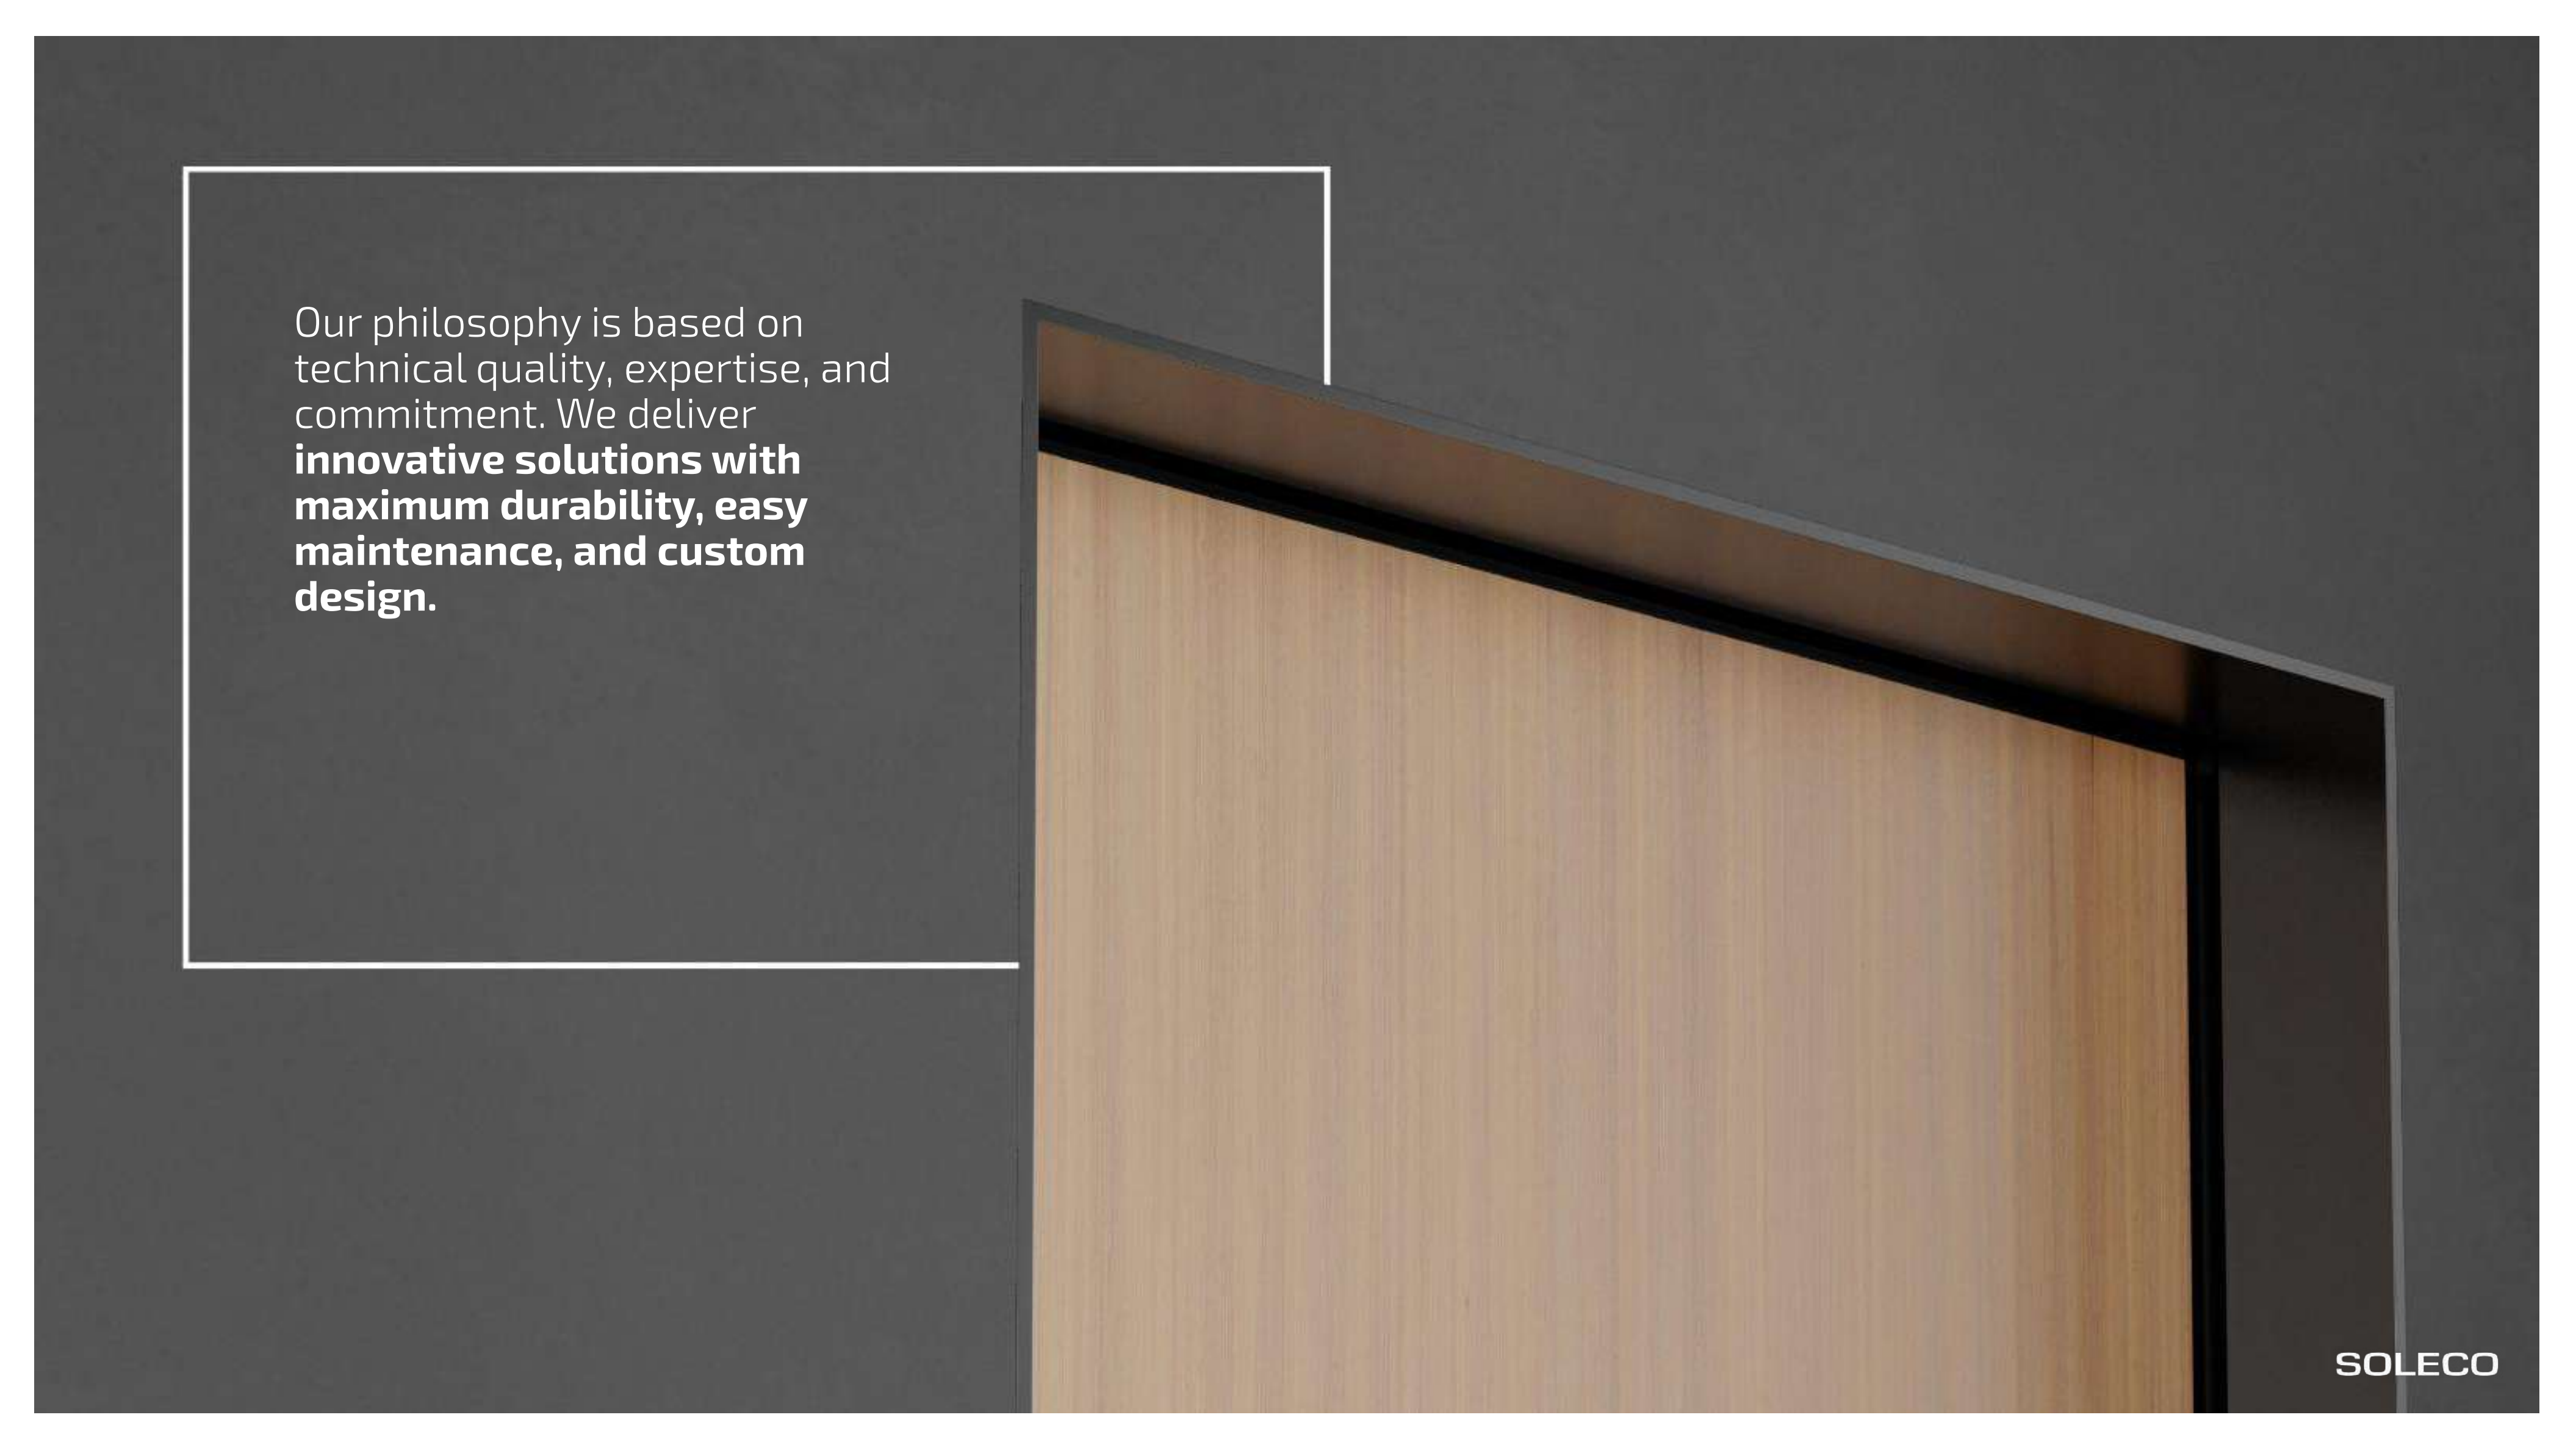

A wide-angle shot of a modern, minimalist hallway. The walls are dark, and the floor is a light, neutral color. On the right side, there are several vertical blue and white panels. The ceiling is white with recessed lighting. The hallway leads to a bright area at the end.

Since 2005, Soleco has been designing and manufacturing proprietary systems of **metal frames and technical doors** for high-traffic projects.

We operate in over 30 countries, delivering durable and resilient solutions for demanding projects:

- Hospitals and clinics
- Nursing homes
- Universities and schools
- Hotels
- Sports facilities
- Landmark buildings

Our philosophy is based on technical quality, expertise, and commitment. We deliver **innovative solutions with maximum durability, easy maintenance, and custom design.**

What do we do?

If you want a technical metal frame, you want Soleco.

Galvanized Steel Frames

- Telescopic and fixed frames
- Coated in any RAL color
- Custom-built for each project
- Extensive technical configurations available
- Certified for acoustic insulation and fire resistance
- Maximum durability, hygiene, and guaranteed strength

Stainless Steel Frames

- Telescopic frames
- AISI 304 and 316 certified quality
- All configurations also available in stainless steel

Aluminum Frames

- With anodized finish. Elegance, simplicity, and cleanliness.

SOLECO

Knock-Down[®] System

Our patented installation system sets Soleco doors apart. It allows perfect adjustment to any wall type with no complications.

Versatility and adaptability

Easy to install in both new builds and renovations.

Tailored solutions for your project

Custom manufacturing adapted to your project's specific requirements.

Easy installation

Adjustable system for easy fitting before or after wall construction.

Long-lasting durability

Built to withstand time thanks to premium materials.

SOLECO

Advantages of Soleco products.

Our products are tailored to the size and needs of each project—we offer **fully customized solutions**.

Maximum Durability	Impact Resistance	Exclusive design and a wide range of finishes
Fire Resistance Certifications (EI) <i>(Optional)</i>	Acoustic Insulation Certifications <i>(Optional)</i>	Resistance to humid environments
Hygienic and easy to clean	Antibacterial Technology <i>(Optional)</i>	X-Ray Protection Technology <i>(Optional)</i>

We are committed to the **highest quality and sustainability.**

We collaborate with the most internationally respected laboratories.
Our products are certified under the strictest standards.
We are the only metal frame manufacturer with a Qualisteelcoat license.

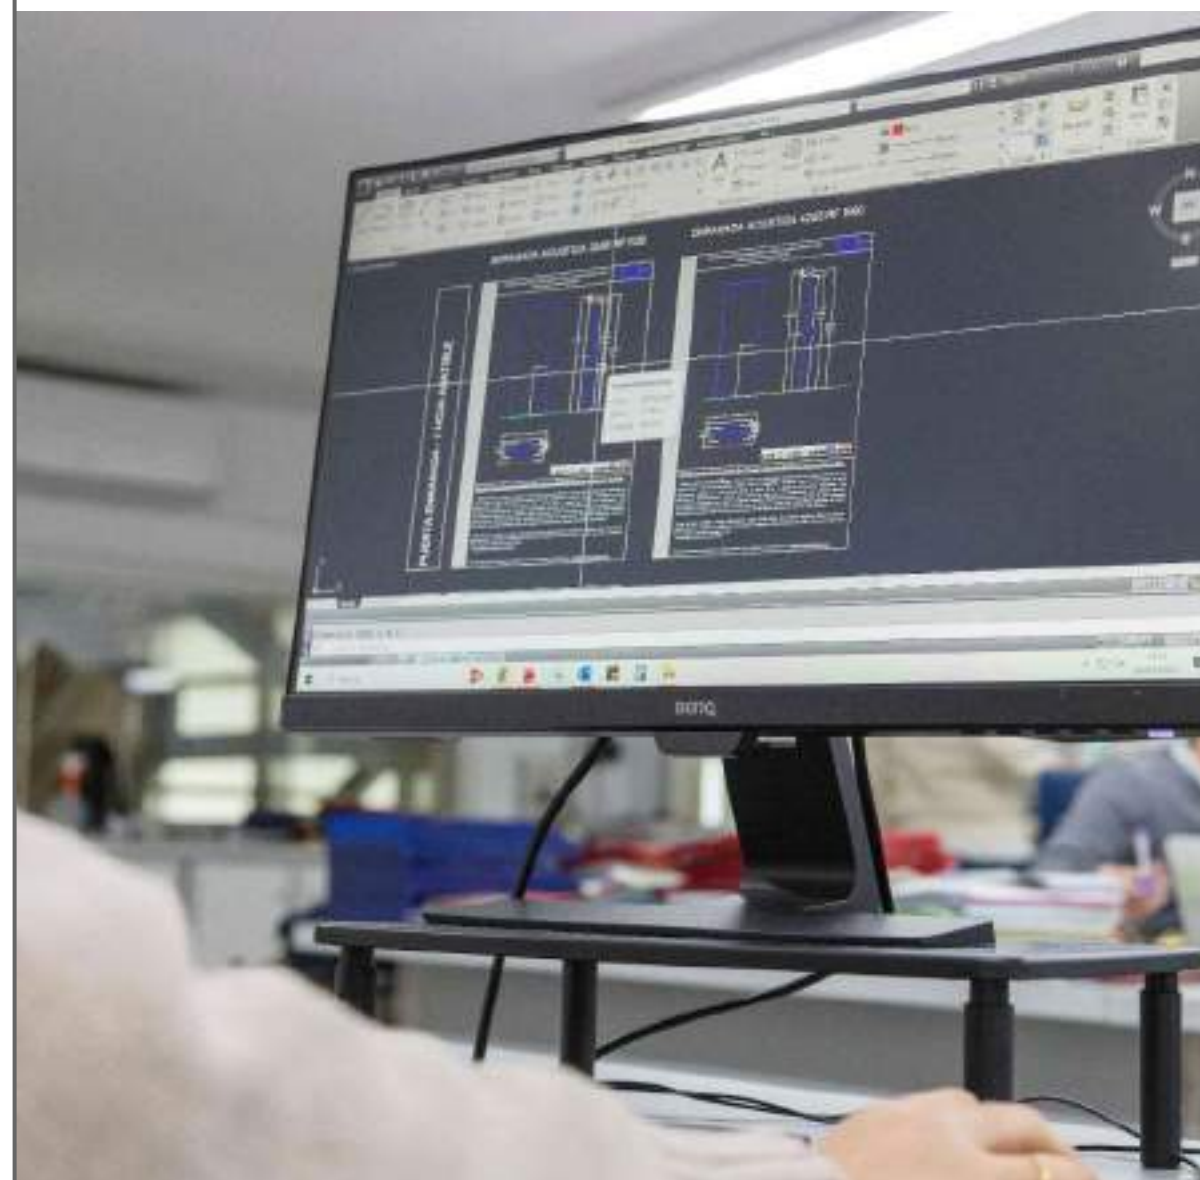

Why choose Soleco?

01

Technical excellence and personalized professional support.

We manufacture certified, high-quality products and offer outstanding technical support through our in-house architectural department.

02

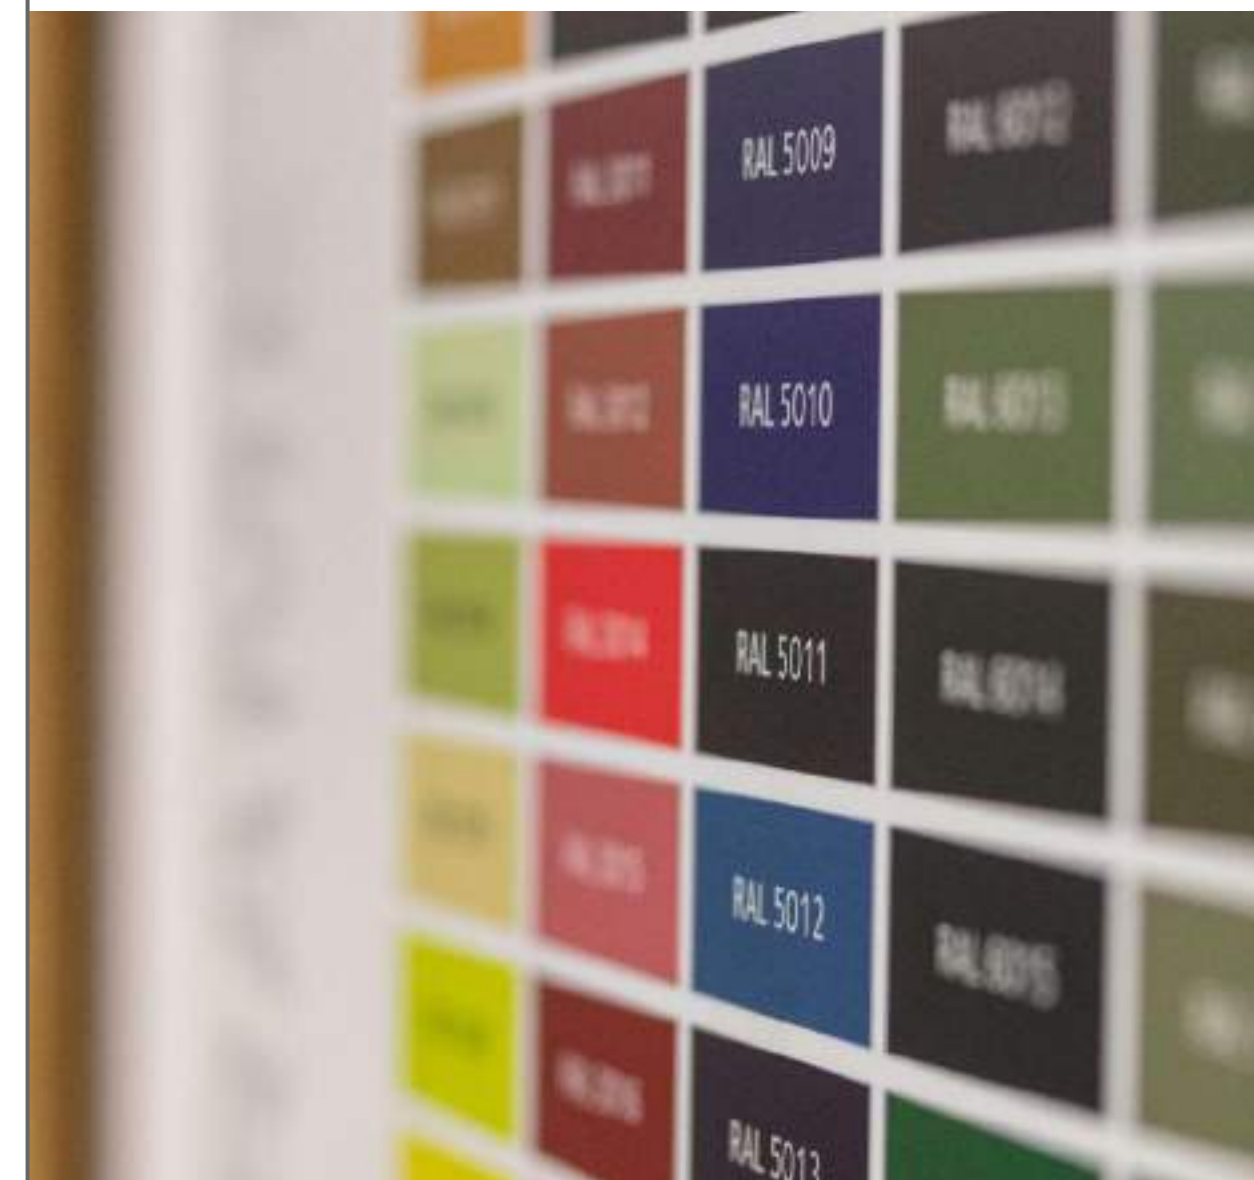

Production tailored to your project's needs.

We offer customized solutions for any scale—from large-scale hospital projects with 5,000 doors to small renovations with just 2 doors.

03

Complete design freedom and customization.

Industrial doors have never looked so attractive. Choose from a wide range of RAL and HPL finishes and freely combine metal and wood textures.

SOLECO

04

Innovation and continuous improvement.

We continually enhance our products and services to meet all the evolving demands of your project.

05

Excellent after-sales service.

We support your project throughout its entire life cycle, providing reliable after-sales service and addressing any future needs.

06

Guaranteed quality and exclusive patented products.

Our products hold the world's top certifications. We design and manufacture proprietary, patented solutions built to the highest standards.
